

Alana Fairchild's SOUL GUIDANCE & SACRED MENTORING™

SGSM™ Training Course Materials 2020

You'll need a computer with internet connection to download your training materials and be able to communicate with us by email or Skype.

You will need a once-off investment in your Trainee product pack for the course. The cost for the trainee pack (physical products) is approximately AUD\$240 plus postage and it will last you the entire year and become the toolkit for your work with your clients when running the templates and the group workshops. It will be an investment that will work very hard for you.

Your trainee pack includes four textbooks - Crystal Angels 444, Crystal Masters 333, Crystal Goddesses 888, and the book Messages in the Numbers - The Universe is Talking to You. It will also include the Crystal Mandala Oracle deck which higher guidance specifically channelled through Alana especially for this training program.

Your pack will also use three meditation CDs, one for each module, and one sacred music CD to support you energetically in the fourth module. These are Radiance, Mystical Healing, For Love and Light on Earth and Voice of the Soul.

Whilst some of you will prefer to have physical books and CDs, you also have the option to purchase these materials as ebooks and downloads, which saves on time, postage and cost (generally electronic products are an inexpensive alternative). If you like working with digital content, this is another option for your course materials.

Please note that the trainee product pack is an additional cost. Some of you will already own the items and not need to purchase again. Some may need to purchase the entire kit. All kit items are available through Alana's website and our international distributors stores.

If you prefer to purchase the books, meditation and sacred music as a download from iTunes or CD Baby, rather than a physical CD, that is absolutely fine.
